

PREFACE

For 90 years, Zantingh B.V. has developed into a leading supplier of professional heating installations, central heating components, and related service activities. Today, Zantingh is younger and more dynamic than ever. From our head office in Rijsenhout and our warehouse in Maasland, the management team and approximately 45 employees remain committed, as always, to delivering high-quality performance. After all, Zantingh's right to exist depends entirely on satisfied customers.

For quite some time, Zantingh has been one of the largest Dutch suppliers in the field of central heating components for greenhouse horticulture. The central heating wholesaler is also active in utility construction and in export markets. Hundreds of installation companies in the Netherlands and abroad are regular customers.

Extensive range

Our product range includes pumps, mixing control equipment, butterfly valves, welding supplies in (stainless) steel, greenhouse heating hose, and fittings. This extensive range is available from stock at two locations: our head office in Rijsenhout and our Westland warehouse in Maasland.

General terms and conditions of sale concerning the supply of central heating materials

1. Discounts

The Zantingh central heating price list shows the gross selling prices, unless stated otherwise. The stated gross selling prices are in principle valid for one calendar year, subject to interim price changes.

2. Shipping and administration costs

For order amounts up to €500 net, excluding VAT, the following applies:

Maximum weight 20 kg: shipping and administration costs €20, excluding VAT

Package heavier than 20 kg (shipped on a pallet): shipping and administration costs €40, excluding VAT

For deliveries within the Netherlands with an order amount of €500 net or more, excluding VAT, no shipping or administration costs will be charged.

For shipments to addresses outside the Netherlands, the costs will be quoted in advance.

3. Payment

Net cash, meaning invoice amounts must be credited to our account within 30 days of the invoice date.

4. Returns

Equipment that is not covered by warranty and that has been correctly delivered by Zantingh B.V. in accordance with your specified requirements cannot, in principle, be taken back. If, in special cases, agreement is nevertheless reached between your company and Zantingh B.V. to return goods, those goods must in any case meet the criteria below:

- The equipment must be new (undamaged, unused) and no more than 12 months old after delivery of the relevant item, according to the corresponding official invoice from Zantingh B.V., unless otherwise agreed in the meantime.
- The equipment must be in its original undamaged packaging (and must not be marked or written on).

Goods manufactured and/or supplied as a special customer order cannot be returned.

In such a special case, provided the above criteria are met, at most 50% of the net value of the original invoice on which the item(s) were supplied by Zantingh B.V. will be reimbursed. A minimum invoice value of €500 net, excluding VAT, applies, meaning the minimum credit amount is €250 net, excluding VAT.

ZANTINGH

DANFOSS RADIATOR FITTINGS

Valves for thermostatic controllers Type RAV

The two-way valve RAV ensures precise and constant temperature control in combination with the thermostatic temperature controllers RAVV.

The RAV two-way valve is equipped with internal thread and point connection.

Technical data:

Maximum water temperature : 120°C.
 Proof : 16 bar
 Maximum operating pressure : 10 bar

Two-way valve RAV Recht

Item no.	Description	Type	Connection size	KVS value	Price €
4400013	Therm.valve	RAV 15/8	1/2"	1,6	44,90

Temperature controller for air and water

The RAVV temperature controller is a thermostatic controller suitable for various applications. Used in combination with the RAV valves.

The RAVV control element is equipped with a copper rod probe for temperature measurement in water and air. Immersion tube is available separately.

Technical data:

Max. sensor temperature : 120°C.
 Setting scale : 1 ... 5

RAVV control element

Item no.	Description	Type	Temp.	Capillary	Price €

DANFOSS DIFFERENTIAL PRESSURE REGULATORS

Membrane-controlled differential pressure regulator

Membrane-controlled differential pressure regulators.
 Operation: valve opens with increasing differential pressure without auxiliary energy.
 Regulator equipped with 2 impulse lines and
 2 adapter nipples 1/4 flare x 3/8 R.

Technical data:

Maximum working pressure : 10 bar
 Maximum differential pressure : 1.2 bar
 Max. medium temperature : 110°C
 Adjustment range : 0,1 ... 1.2 bar

Item no.	Description	Type	Connection size	KVS value	Price €
4401001	Differential press. regulator	AVDA 20	3/4"	3,4	607,00
4401002	Differential press. regulator	AVDA 25	1"	5,5	642,00

Spring-loaded differential pressure regulator

Spring-loaded differential pressure regulators.
 This differential pressure regulator is intended for small installations up to approx. 65kW.
 With an increasing pressure difference, the spring-loaded valve opens, causing a part of the
 of the water is overflowed into the return.
 Placement about 6 meters from the central heating device.

Technical data:

Maximum working pressure : 10 bar
 Maximum differential pressure : 0.5 bar
 Proof : 16 bar
 Max. medium temperature : 120°C.
 Adjustment range : 0,05 ... 0.5 bar

Item no.	Description	Type	Connection size	Connection	Price €
4404003	Differential press. regulator	AVDO 15R 6018	bi x bu 1/2"	Law	97,30

Double thermostat and maximum thermostat RAZ-ST.030FP

Thermostat is adjustable from the outside (TR), adjustable from 15-95°C

Max. thermostat (STB), fixed switch-off temperature 110°C,

mechanical locking, unlocking covered by external,

Removable screw closure.

Switching capacity contact 11-12 10(2.5) A, 250Vac

Item no.	Description	Type	Temp.	Price €
1601205	Thermostat	RAZ-ST.030FP	15 ... 95°C	179,70

CHAPTER 2

Centers mixer taps

Honeywell control valves

Control equipment

Three-way mixer with straight or angled passage PN6

Application:

Mixing control of supply water temperature in heating, air treatment and horticultural applications.

Technical data:

Ports	: female thread/flange connections according to DIN2531
Home	: cast iron
Swivel plug	: chrome-plated cast iron
Rotation angle	: 90°
Sealing	: double o-ring
Medium	: heating water, glycol-water mixture (max. 50% glycol according to VDI 2035)
Temperature	: + 2... 130°C; 6 bar

With female thread connection and straight passage

Four-way mixer PN6	
Application:	Mixing control of supply water temperature in heating, air treatment and horticultural applications.
Technical data:	
Ports	: female thread/flange connections according to DIN2531
Home	: cast iron
Twist plug:	: chrome-plated cast iron
Rotation angle	: 90°
Sealing	: double o-ring
Medium	: heating water, glycol-water mixture (max. 50% glycol according to VDI 2035)
Temperature	: + 2... 130°C; 6 bar

Servo motors for mixers VMK – VMM

Application:
 Three-point control in heating and air handling applications.
 Three-point control in (greenhouse) horticulture heating applications.

Technical data:
 Protection class : IP 54 according to EN60529
 Insulation class : II per EN60730
 Control signal : Three-point (floating)
 Rotation angle 90° : for DR-ZR and ZRK cranes
 Rotation angle 120° : for DRK cranes

Suitable faucets:
 DR-ZR series : VMM type
 ZRK series : VMK-type

Accessories:
 Switching, for installation
 Contact load: 3 A, 230 V~
 For servo motors VMK and VMM, 2 switches; VMS 2
 For servo motors VRK and VRM, 1 switch; VRS 1

Grundfos

JOHNSON COMBILINE PUMPS

Johnson CombiLine built-in circulation pump with dry motor	
Technical data:	
Maximum capacity	: 400m ³ /h
Maximum head	: 1 - 28 m
Maximum temperature	: 140°C
Maximum working pressure	: 6 bar (ND 6 / flanges DIN2631 PN6)
	: 10 bar (ND10 / flanges DIN2633 PN16)
Rated speed	: 1450 min ⁻¹ (4 pin)
Electric motor (at 50Hz)	: 1450/950 min ⁻¹ (4-pin/6-pin)
IP class electric motor	: IP 55
Electric motor frequency	: 50 Hz 230/400 V (≤ 1.5 kW)
	400/695 V (≥ 2.2 kW)
<i>For other voltage and special voltage see Chapter 14 Appendix SPX pumps.</i>

For pumps with a special voltage see the appendix at the end of the price list.

GRUNDFOS CIRCULATION PUMPS

Grundfos Built-in circulation pumps type MAGNA 1

The GRUNDFOS MAGNA 1 circulation pump is designed for

Pumping liquids for:

Heating

Cooling

Domestic hot tap water

Geothermal heat pump systems.

The MAGNA 1 is the ideal replacement for the UPS.

Item no.	Description	Installation size	Nutrition	Price €

Grundfos Concealed circulation pumps type MAGNA 3

The MAGNA3 is suitable for both heating and cooling applications as well as for the circulation of household hot water systems.

The pump is designed to handle liquids down to -10 °C, making it suitable for both heavy industrial and industrial applications. tasks such as heat pump systems.

MAGNA3 has a built-in heat energy meter that provides system heat energy distribution and the consumption to avoid excessive energy bills due to system imbalances.

And it saves you the installation cost of a separate energy meter instrument.

EBRO butterfly valves

Non-return valves

Valves

Welding throttling valves

Adjustment valves

EBRO BUTTERFLY VALVE, TYPE Z011-A

This universally applicable, high-quality and maintenance-free butterfly valve is suitable for both AC and CV applications.

The butterfly valve is suitable for mounting between counter flanges according to PN6/10/16.

Four centring ears ensure easy and secure installation.

Can be used as an end valve (max. 6 bar) with counter flanges PN 10.

Material Specification:

Home	: GG 25 (alt.: GGG40)
	: Overall length acc. PN 6
	: Top flange acc. PN 6
Cuff	: EPDM with integrated flange gasket.
Valve disc	: up to DN 300 stainless steel
	from DN 350 steel (electro-nickel-plated)
Assen	: Stainless steel
Bearing	: Bronze, 3-fold
Operation	: 6° adjustable handle, incl. anti-fog bridge
	: Infinitely adjustable from DN 250
Max. differential pressure	: 10 bar
Max. temperature	: 130°C
	From DN300 onwards, no trade is included.

EBRO BUTTERFLY VALVE, TYPE Z011-A - GAS VERSION

This universally applicable, high-quality and maintenance-free butterfly valve is suitable for as a gas shut-off valve.

The butterfly valve is suitable for mounting between counter flanges according to PN6/10/16.

Four centring ears ensure easy and secure installation.

Material Specification:

Home	: GG25 (alt.: GGG40)
	: Construction length according to DIN 3202 K1/ ISO 5752 short
	: Top flange according to ISO 5211
Cuff	: PERBUNAN with integrated flange gasket
	easily interchangeable
Valve	: up to DN 300 stainless steel stainless steel 316
Assen	: Stainless steel
Bearing	: Bronze, 3-fold
Operation	: 6° adjustable handle, incl. anti-condensation bridge
	infinitely adjustable from DN 250
Max. differential pressure	: 10 bar (also 16 bar available)
Max. temperature	: 130°C

From DN300 onwards, no handle is included.

GATE VALVE ROT-GELB

Gate Valve Rot-Gelb

Usage features:

Steam up to + 160°C.

Mineral oils and fats up to + 160°C.

Petrol, air.

For a working pressure of up to 20 bar.

Cold water.

Hot water up to 160°C.

Item no.	Description	Connection	Price €

CHECK VALVES

Bronze Check Valves Rot-Gelb

For water, saturated and wet steam, mineral-containing oils, fats and air.

Equipped with sloping seat and bronze seal ND 16.

Technical data:

Maximum temperature : 160°C.

Working pressure : 16 bar

Equipped with sloping seat and bronze seal ND 16.

Ball valves											
Full bore ball valves, equipped with handle.											
Applications include water, oil, vapors, air and gasoline.											
Material housing	: brass MS 58, then nickel-plated.										
Ball material	: brass MS 58, then chrome-plated.										
Pressure	: PN 30.										
Temperature	: - 20°C ... + 180°C										
Seals	: P.T.F.E. (Teflon)

ADJUSTMENT VALVES

Adjustment valves with measuring nipples

Flanged adjustment valves for adjusting heating valves and refrigeration installations (ethylene glycol and brine), not suitable for drinking water systems.

Features : adjusting, shutting off and measuring differential pressure and flow rate.
 Flanges Ordinary: PN16
 Max. working pressure : 16 bar
 Max. working temperature : - 120°C
 Min. Working Temperature : - 10°C
 Material : cast iron (GG25)

2502011	Red copper pipe	4 mm	on a roll	P.O.A.

CHAPTER 6

Welding supplies

3.1 Certificates

For all steel components, fittings, and flanges, it is possible to obtain a 3.1 material certificate.

This must be requested in advance when placing the purchase order.

It is not possible to request a 3.1 certificate after the order has been placed.

The cost for a 3.1 certificate is € 30,00 NET per order.

WELDING ELBOWS 90 DEGREES

Item no.	Description	Connection size	Price €
2400001	Welding elbow	21.3 X 2.0 mm 3S 90gr.	0,93

EXPANSION JOINTS WITH FLANGES

RUBBER EXPANSION JOINTS WITH FLANGES

A universal EPDM rubber expansion joint in various applications heating and cooling installations.

Technical data:

Bellows element : EPDM Rubber
 Connection : Galvanized steel flange
 Max. working pressure : 20°C - 16 bar
 Max. negative pressure : 0.5 bar

Item no.	Description	Connection size	Installation size	Price €
2505011	Expansion Joints EPDM	DN 32 / PN16	130 mm	42,08

CHAPTER 7

Expansion tanks

PRESSURE EXPANSION VESSELS

Zilmet Zilflex-H Diaphragm Pressure Expansion Vessels (red) according to the Pressure Equipment Directive 2014/68/EU and DIN EN 13831. Use in closed heating systems according to DIN EN 12828 and refrigeration systems.

Technical specifications

Permissible operating temperature : 70°C
 Max. working pressure : 8 to 50 litres - 4 bar / 120°C : 80 to 900 litres - 6 bar / 120°C
 Connection : 8 to 50 litres - G 3/4" male thread : 80 to 900 litres - G 1" male thread
 Membrane : according to DIN4807 T3. Approval according to the Pressure Equipment Directive 2014/68/EU.

CHAPTER 9

Weight safety devices

Gas filters

Gas pressure regulators

Spring safety devices

WEIGHT SAFETY DEVICES AND GAS FILTERS

Bronze safety devices with indirect weight load.

By using a Teflon valve ring, this version is pre-eminently suitable for low-pressure steam up to 0.5 bar. Also suitable for hot water, air and non-hazardous gases up to 250°C. The weight safety devices are supplied complete with weight.

Material Specification:
Bronze body, with interchangeable seal, cast iron weight.

Item no.	Description	Connection	Pressure	KG weight	Price €
3000001	Weight safety	1 1/4"	1,5 ... 4 bar	3,55KG	291,72
3000002	Weight safety	2"	0,5 ... 2 bar	3,55KG	497,54
3000003	Weight safety	2"	1,5 ... 4 bar	6,50KG	571,54

3000022	Weight for 1 1/4"		1,5 ... 4 bar	3,55KG	90,20
3000019	Weight for 2"		0,5 ... 2 bar	3,55KG	135,71
3000020	Weight for 2"		1,5 ... 4 bar	6,50KG	209,72

3000021	Teflon ring for weight safety 1 1/4"				11,58
3000004	Teflon ring for weight safety 2"				15,79

Filters (dirt traps)

Filter is suitable for water, oil, compressed air and neutral gases.

Material Specification:

Mesh size : 0.25 mm
Connection : female thread
Home : bronze
Maximum pressure : 16 bar

Also other mesh sizes available.

Item no.	Description	Facts	Connection size	Mesh size	Price €
3000010	Gas filter	Bronze	1/2"	0.25 mm	33,21
3000011	Gas filter	Bronze	3/4"	0.25 mm	38,25
3000012	Gas filter	Bronze	1"	0.25 mm	55,72
3000013	Gas filter	Bronze	1 1/4"	0.25 mm	82,90
3000014	Gas filter	Bronze	1 1/2"	0.25 mm	97,29
3000015	Gas filter	Bronze	2"	0.25 mm	168,26

Filters, suitable for gas and water.

Filter is suitable for water and neutral gases.

Material Specification:

Flanges Ordinary: PN16
Home : GG25

Other mesh size and passage on request.

A magnet is also available for this type of filter.

Item no.	Description	Connection size	mesh size	Price €
9619000	Gas/water filter	DN 50	0,75	146,20
9619001	Gas/water filter	DN 65	0,75	197,10

5200016	Gas B valve	J 120	2"		555,18

RELIEF VALVES/SPRING SAFETY DEVICES

Relief valves (bronze) not adjustable

Overflow valve for heating systems.

According to : TRD 721 DIN 4751 Part 2.

Max. temperature : 120°C

Glycol : max. 30 %

Home : bronze

Relief valve without quality mark

Item no.	Description	Type	Connection size	Setting	Price €
3000025	Relief valve	651	1/2"	1.5 bar	46,21
3000026	Relief valve	651	1/2"	6 bar	28,25

Relief valve with quality mark

Item no.	Description	Type	Connection size	Setting	Price €
3000006	Relief valve	651 HN	1/2"	3 bar	25,71
3000007	Relief valve	651 HN	3/4"	3 bar	35,67
3000008	Relief valve	651 HN	1"	3 bar	58,55
3000009	Relief valve	651 HN	1 1/4"	3 bar	121,16
3000023	Relief valve	651 HN	1 1/2"	3 bar	217,22
3000024	Relief valve	651 HN	2"	3 bar	330,99

Safety valve, not adjustable

Flamco Prescor S safety valves for closed heating installations.

Equipped with lever to be able to lift the valve, as required by NEN3028.

Equipped with a type plate indicating the set pressure and boiler capacity.

It is not possible to change the setting pressure.

Body and valve seat : Brass

Connection : Female thread

Set pressure : 3 bar

Other adjustment pressures available on request.

Item no.	Description	Blow-off cap.	Inlet	Exhaust	Price €
3000030	Safety valve S700	810 KW	1 1/4"	1 1/2"	373,61
3000031	Safety valve S960	1120 KW	1 1/2"	2"	618,71
3000032	Safety valve S1700	1980 KW	2"	2 1/2"	710,36

Spring safety devices

Suitable for oil and gases.

Resistant to : oil and gasoline

Max. Temperature : 618T, 225°C

: 619T, 130°C

: 618T, Teflon

Seals : 619T, perbunan

Home : bronze

Item no.	Description	Type	Connection size	Setting	Price €
3000027	Relief valve	618 T	1/2"	0.5 bar	111,68
3000018	Relief valve	619 E	3/4"	2 ... 12 bar	136,90

5700029	Automatic air vent	Tuxhorn 559	3/8"	Wire	61,36

Automatic quick air vent

Air vent with built-in shut-off valve.

Maximum system pressure	: 6 bar
Maximum temperature	: 110°C

Item no.	Description	Type	Connection size	Connection	Price €
5700016	Automatic air vent	Spirotop	1/2" X 1/2"	Wire	79,23
5700028	Automatic air vent	Flexvent Super	1/2"	Wire	80,84

Vacuum protectors PRESSCON

ZANTINGH

Ideally suited for securing horizontal buffer tanks against vacuum.

Technical data:

Material : stainless steel 304
 Continuous workload : 1.5 bar
 Maximum peak pressure : 3.0 bar
 Maximum temperature : 120°C.
 Vacuum opening pressure : 2 ... 5 mbar

Vacuum over- and working pressure protectors are also available for vertical buffer tanks.

Item no.	Description	Type	Connection size	Price €
3050001	Vacuum protector	PV50-2	DN 50 ND10 flange	1.670,90
3050002	Vacuum protector	PV80-2	DN 80 ND6 flange	1.774,91
3050005	Vacuum protector	PV100-2	DN 100 ND6 flange	2.333,78

LOW WATER PROTECTION

Low water protection

Item no.	Description	Type	Connection	Price €

CHAPTER 13

Fan heaters, indirect fired

Fan heaters

Indirectly fired fan heater
 Can be used where a room needs to be heated, suitable for wall and ceiling mounting.
 Casing made of galvanized and sprayed profile frame construction.
 Removable casing plates, galvanized.
 Noiseless motor with built-in thermal contacts for motor protection, 230V, 400V, explosion-proof version.
 Heat exchanger made of Cu/Al, suitable for hot water, hot water up to PN 16, 180°C.
 Suitable for steam up to 9 bar
 Alternatively galvanized steel.
